

WORKSHEET A.4.M7

Multimedia - Image

What we will learn today:

- Apply filters to an image

Activity A - Face distortion

1. Open lena.jpg from your folder.
2. Use the selection tool to select the face.

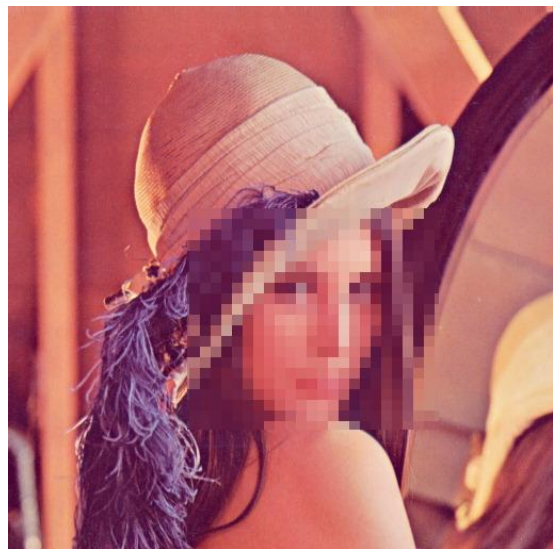

3. Distort the face using the Pixelize filter: Filters > Blur > Pixelize.
4. Choose Select > None.
5. Save the image in your folder as fe7_1.jpg.

Activity B - Colorify

6. Open GIMP.

7. Create a new image: File > New. Set its size to 1000 x 738, as shown in the dialog box.

8. Open Rihanna.png and apply a colour effect: Colors > Colorify.

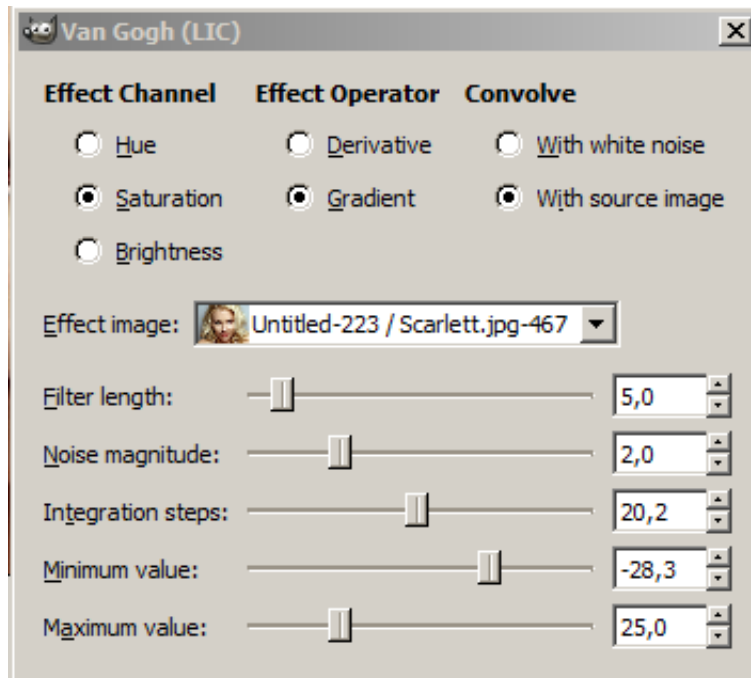

9. Copy the Rihanna image into your empty image. Repeat this step four times to create the image shown below.

10. Save the image in your folder as fe7_2.jpg.

Activity C - Converting an image into a painting

11. Open the Scarlett image.
12. Choose the Van Gogh filter: Filters > Artistic > Van Gogh.
13. Select Saturation and experiment with the other settings.

14. Apply the Canvas filter: Filters > Artistic > Apply Canvas.
15. Save the image as fe7_3.jpg.
